Bro, this is... like, letting go, you know? "Wherever it takes me... paper boat." It's that feeling of just drifting, no control, just trusting where life's gonna take you. A paper boat's so fragile, right? So it's like, you're putting your fate in something small and uncertain. It's kinda scary, but also kinda freeing. Like, you're just surrendering to the flow, wherever it goes. It's a simple image, but it hits you with that whole "trust the journey" vibe.
