Dude,  
"forever you and I"... that's straight up  
intense. Like, it's just a few words, but it hits you  
with that whole "ride or die" feeling. It's that kind of  
promise that's both beautiful and kinda heavy. It's  
like, are you talking about love? Friendship? Some  
unbreakable bond? Whatever it is, it's big, like,  
forever big. It's simple, but it carries a ton of  
weight, you know? Like, a serious commitment.
